After joining DDK through a merger a few years ago, Richard has proven to be an invaluable tax partner. Prior to joining DDK, he was the President and majority owner of Eisenberg and Blau CPAs, P.C.

Richard works with several high net worth clients and provides audit, consulting, review and tax preparation services to a number of other clients. His practice focuses on security and options dealers and traders, personal income taxes, FINOP for certain dealers and hedge funds.

Richard finds his work to be challenging yet rewarding. "Tax laws always change, creating new problems to be solved. The greatest satisfaction comes from finding solutions to these problems. And, just as rewarding, is the sharing of knowledge and experience with younger associates and seeing them develop their skills."

Richard is also very active in his community. In addition to being a Trustee of a Private Foundation, he is also an award winning singer/songwriter in the cabaret community.
